The "Twin room"'s default Occupancy comes with 2AD + 2CH

The price has been loaded as 100 EUR (RoomOnly) with an Extra option of Hot Buffet Breakfast at 11 EUR per person per night.

*Both of them have left the Child Policy = None

When Searching an API with 2 Adults + 1 Child (10 years old) It returned the Room based price 100 EUR but For the extra returned 22.00 EUR (11.00 EUR x 2 adults)

Question : Why doesn't pick-up 33.00EUR (2 Adults + 1 Child), Is it mean

- a. The Extra Breakfast is <u>Free of charge</u> for the Child ? OR
- b. The Extra Breakfast <u>not available (not included)</u> for the Child ?

Scenario#2

Remain everything the same as Scenario#1 but <u>changes "Child Policy" of Extra Breakfast as</u> <u>FOC 0-2 years only</u>
